Two day workshop on APPLIED BEHAVIOR ANALYSIS THERAPY

27 & 28 MAY 2019

Venue: NIPMR, Kallemtumkara
Irinjalakuda, Thrissur.

Facilitator: Mrs Gita Srikanth

Former president of ABA, India
Board Certified Behaviour Analyst (BCBA)

Gita Srikanth is the Founder – Director and Behaviour Analyst at WeCAN resource centre for Autism .She pursued her Masters in ABA from Ball State University, USA and qualified as a BCBA – currently 1 of 24 professionals in India. She is passionate about training and conducts training workshops across India with the aim of teaching behaviour principles across the board.

ABA therapy programs can help:

- Increase language and communication skills
- Improve attention , focus, social skills ,memory, and academics
- Decrease problem behaviours

About Applied Behaviour Analysis

Applied Behaviour Analysis (ABA) is a therapy based on the science of learning and behaviour. Therapists have used ABA to help children with autism and related developmental disorders since the 1960s. ABA can be adapted to meet the needs of each individual and is not restricted to any age group, gender or population.

Who Can Attend?

Professionals who work with children with special needs- Doctors, Psychologists, Speech therapists, Occupational therapists, Special educators, trainees and students of profession mentioned above.

Using ABA to help you decide:

- How to breakdown skills for effective teaching
- How to use reinforcement, pairing to make your teaching more positive and effective
- How to identify and strategise interventions for problem behaviour.

Call for Registration:
Arun 9946342597, Athira 8891451214

Registration Fee: Rs. 2500

(Includes ABA training materials to use, live demos during the workshop, Refreshment and Certificate)
